# THE GRENADA SENTINEL

VOLUME LXXXV — GRENADA, MISS., FRIDAY, OCTOBER 22, 1937 — NUMBER 22

## Grenada Farmers Can Save Meat The 'Cold Storage' Way

### Plant Opens Nov. 1; Winter Cover Crop Seed Prices Reduced

(By J. L. Cooley, County Agent).

The cold rooms of the County Cold Storage Plant will be opened November 1, for meat curing and storage. The plant was built by the county board of supervisors in co-operation with the WPA. The services of the plant are available to the farmers of Grenada and adjoining counties. One cold room has been equipped for curing pork and another room has been equipped for storing carcasses of beef, mutton, goat and miscellaneous products. The insulation and refrigeration have not been completed in two other rooms that will be used for the storage of poultry, eggs, fruits, vegetables, peas, soy-planned that the Cold Storage and Warehouse Plant will serve as a medium for the Cooperative Marketing of hogs, cattle, poultry, eggs, fruits, vegeables, peas, soybeans, corn, winter cover crop seed, fertilizers and other miscellaneous farm products in addition to curing meat for our farmers. The Cold rooms make it possible for our farmers to butcher their livestock every month in the year.

Fresh meat will be available both for home consumption and for sale at any time during the year. The Cold Storage offers our farmers the advantages both of saving meat and livestock feed. When an animal gets in condition for slaughtering it will not be necessary to feed it several weeks awating a "cold spell." Research shows that "home cured" meat loses 20 percent to 25 percent in weight, while cold storage cured meat shrinks only 2 percent to 4 percent. Cold storage curing improves the quality of pork and prevents it from becoming rancid if held in storage during the summer months.

The following rates of curing charges in lots in excess of 600 pounds: plain salt cure, ½c per pound; sugar cured 2c per pound; smoke salt and sugar cured 2½c per pound. In lots of less than 600 pounds, the charges are slightly higher. A charge of 1c per pound for the first month and ½c for each succeeding month will be made for storing fresh beef, mutton, goats, etc., to allow the public to have fresh meat to eat.

The sale prices for winter cover crop seed have been reduced as follows: hairy vetch $9.85 per 100 pounds, Austrian peas $5.85 per 100 pounds; burr clover 75c per bushel; and oats 75c per bushel. Many farmers have already planted these soil building crops. Several farmers that never have grown these crops before are making plantings. These cover crops protect the soil from the erosion of winter rains and add much fertility. All farmers cooperating in the 1937 Soil Conservation Program may receive a credit of $1.50 per acre on their soil building payment for planting these soil building crops.

## Mrs .S. L. Lewis, 51, Passes Away After Long Illness

### Rev. E. R. Henderson Conducted Services; Burial in Odd Fellows Cemetery

Mrs. Daisy Thomas Lewis, age 51 died Friday, October 15th, at 5 o'clock p. m. in a Jackson hospital after a six months illness. Her husband and two sons were at her bedside when she was called away.

Funeral services were conducted from the home here Sunday afternoon at 3 o'clock with Rev. E. R. Henderson, Pastor of Central Baptist Church, officiating. Interment was in Odd Fellows cemetery.

She was married to Mr. S. L. Lewis on January 19th, 1908 at Woodland, Miss. The family has made their home in Grenada since 1922.

Besides her husband, two sons survive, John and Earl, both of Grenada.

To the sorrowing relatives, The Sentinel extends sympathy.

## The John Moore Family

(By W. E. Boushe)

One of the most worthy families ever to grace Grenada county, not only for the important part they have played in its development from its infancy until now, but the high esteem in which they are held today is the Jno. Moore family. Mr. John Moore came to this community more than 100 years ago from Notaway, Va., with his father-in-law and mother-in-law, John and Susan Jones who were the parents of three girls, Mary was the wife of John Moore, Martha who afterwards married William Boushe, and Catherine who married Henry Moore, a brother of John Moore. Mr. John Moore, before reaching this community, settled in the small town of Pittsburg, now the West Ward of Grenada. He at once set about trying to improve his new found home both morally and civilly, as he was a deeply religious man, a member of the Presbyterian church which he dearly loved, as do most of his descendants of today. He was considerably interested in real estate and built up the subdivision of Pittsburg, called the Passey Loyan Survey of the Peggy Triban property. He was an architect of no mean ability. He built for his own the beautiful antebellum home on Margin Street called the Powell house. Here he lived until the death of his fine wife. The magnificent columns which grace the front of the building were transported here by boat up the river from New Orleans. He built other imposing buildings here. One home which he built is the home now owned by Mrs. Kitty Avent on College Street, and was the home of his wife's parents. He ran the first steam saw mill ever in the county, near where Mr. Jack Lott now lives. Also ran a grain mill. But the best that can be said of him is the fame which came from raising a noble family and their descendants. He outlived his wife many years, dying full of years and full of honor.

Mr. and Mrs. John Moore were the parents of five girls and four boys. The girls were, Sara "Sallie" who married Mr. William Meadows. They lived and died in this community, much respected. Luda, the next daughter, a very beautiful character, died in early womanhood, but she lived long enough to make a fair page in the memory of those who knew her. Dolly, who lived to a ripe age died as she lived, a Christian lady, respected by all. She and Mr. William Smith, for many years one of Grenada's first and most prominent citizens. He was an old Confederate Veteran. He was a jeweler by profession. Mr. and Mrs. Smith were in turn the parents of loveable and progressive children. Their son, Frank, has held many positions of trust and is loved and honored by all who know him. He and his lovable family live in Greenwood. The daughters of Mr. and Mrs. Smith, Olive, a beautiful lady and a beautiful character, married Mr. W. J. Jennings, one of the most influential and outstanding men ever to grace our community. They also have a delightful family. Their children and grandchildren reaching to the sixth generation of Grenada countians and are prominent. The next daughter of Mr. and Mrs. Smith, Mrs. Alice Gerard, a sweet and beautiful character. She married our fellow townsman, the fine citizen and worthy friend, Mr. E. L. Gerard, himself the scion of an honored family. Their children, Paul, Lewis, William and Frank, are all fine young men, running true to family tradition, an honor to their name. The last daughter of Mr. and Mrs. Smith, Miss Willie, well known and loved by all who knew her, still lives in our midst.

Now, back to Mr. and Mrs. John Moore. Their next daughter was Alyce, who married Mr. Greenhaw. The Greenhaws were also well known Grenada county people. Their descendents still carry on in Grenada, respected by all and are good Christian people.

The sons of Mr. and Mrs. John Moore were: Henry, a progressive citizen and a good man. He and his splendid wife were the parents of two girls, Sadie and Wilkie, of enviable reputation who live in the West. One son, a splendid young man, died early. The next, Tom, who was one of the sweetest and most lovable men ever to live here and whose word was his bond, married Miss Fannie Hawkins. They were the parents of a family well and favorably remembered by us all. A son, Mitton and a daughter, Evelyn, live in the delta, an-

## Dr. F. J. Underwood Urges Appropriation For Health Service

### To Protect Our Own Health, We Must Protect The Health of Others

Declaring unflinching war against needless deaths in Mississippi today, Dr. Felix J. Underwood, executive officer of the State Board of Health, strongly urged an increased appropriation for adequate health services in a recent statement to the press.

Stating that self-preservation has been man's first instinct since the beginning of time, the health officer pointed out that in order to preserve our own health, we must protect the health of others.

"What promotes the greatest good for the largest number of people has been the basis of law from earliest days," Dr. Underwood said, "and for this reason precepts concerning health were among mankind's first statues.

"Mississippi's Code concerning public health is wise. 'It is the duty,' the Code begins 'of the State Board of Health to supervise the health interests of the people.' This opening sentence is a strong statement designed for liberal interpretation and liberal financial backing."

Dr. Underwood continued, "Per dollar spent, Mississippi's public health service is without peer in the United States. But the dollar allocated to the State Board of Health and county health departments are too few. The health interests of Mississippi's people cannot be adequately supervised on present appropriations.

"Legal basis is at hand to vastly improve the health status of Mississippi. Knowledge and information are available to control all communicable diseases with but few exceptions, notably pneumonia. The American Public Health Association has gone on record as saying that if no further discoveries are made, if only knowledge already at hand is adequately applied, the average span of life can be increased twenty years by 1970."

The health executive concluded, "Since we know how to prevent so much of the needless disease and sorrow prevailing in our state; since every preventable death is a loss to the state in earning power, productive citizenship, and useful labor; since Mississippi can ill afford this futile waste of human reserve; it is the duty of the people of Mississippi to increase the Board of Health's appropriation for their own health interests.

## Mrs. Floretta Dixon 69 Years Of Age, Died October 11th

### Funeral Services and Burial At Chapel Hill Methodist Church

(Contributed)

Funeral services for Mrs. Floretta Dixon, 69, who died at her home near Cadaretta, Miss., Monday morning, October 11th at 4 o'clock were held Tuesday morning at ten o'clock at Chapel Hill church. Burial immediately followed in Chapel Hill cemetery. Wise Bros. of Eupora, had charge of the burial. Rev. Potts, her pastor, Methodist Minister, of Duck Hill and Rev. A. R. Middleton, Baptist Minister, of Eupora, conducted the services. Rev. Middleton made a sweet talk. Mrs. Dixon was born in Webster county November 24th, 1868 and had lived in and near this community all her life. She had been ill since spring. She married Mr. Ell Dixon a number of years ago, who died ten years ago.

All of her children, and one brother, L. B. Carr, and family, of Scobey; and nurse, Mrs. Homie Brown, of Graysport, were by her bedside when she passed away. Mrs. Dixon leaves seven children, Mrs. Ivy Clark, Mrs. Ruben James, Mrs. Alma Clark, Mrs. O. P. Salley and Miss Nellie Dixon, of near Cadaretta; Messrs. Marvin Dixon, 15 miles east of Grenada, and Roy Dixon, of near Red Hill, and eleven grandchildren; two sisters, Mrs. Newt Lowrimore, of Eupora, Mrs. Marshall Dixon, of near Alva; two brothers, Messrs. L. B. Carr, of Scobey, and Alymer Carr, of Philadelphia, Miss., a number of other relatives and friends to mourn her passing.

The deceased would have reached her 70th birthday November 24. She was a member of Chapel Hill church.

Out-of-neighborhood relatives, who attended the funeral services and burial included Mr. Alymer Carr, Philadelphia, Mr. and Mrs. L. B. Carr and daughter, Miss Lillie, of Scobey, Mrs. Newt Lowrimore and two daughters and husbands, Mr. and Mrs. Travis Wilson, Eupora, and Mr. and Mrs. Clanton, of Houston, Texas. Our deepest sympathy is extended to the bereaved ones.

## Grenadians' Father Killed October 18th

Mr. C. A. Burkley, age 72, father of E. R. and C. H. Burkley, of Grenada, was killed by a hit-and-run driver at Kennett, Missouri, Monday, October 18th. The driver of the death machine is not known.

Mr. Burkley's home was in Kennett and he had a host of friends there.

He is survived by four boys and three daughters, his wife having preceded him to the grave.

The Sentinel extends its sympathy to his loved ones.

## Paragraphs From J. K. Morrison

ckson, Miss., Oct. 16—Mr. Ed: Readers of The Grenada Sen, just a few paragraphs from son to express appreciation to riends for so many courtesies. ing again with those that I known over the years gives renewed faith in mankind.

I want to especially show gratitude for the very kind words of the Editor. Though undeserving, I know that they had the ring of sincerity.

Not long ago a daughter of a very fine and true friend took her first position with me. She was so competent and we got so much kick out of working together. She told me of her ambition to be a journalist. She has that opportunity now, and I know that she will go some where. It is born in her and with the training she gets I will watch her course with interest.

She asked me as she was planning to leave, just how I would feel when she left, I said, I have always wanted a daughter, that at last I had found one and she was about to leave, and, to be sure, I would miss her.

And that is about the way I felt about Editor Rice. He was just another son to me and treated me with as fine consideration as any son could treat a father. I hope that the friendship will last over the years.

### The Press Association

On Sunday morning I was on my way to Kenneth Toler's office and out of the Edwards came Rice and Harry. Surprised and delighted, I joined them and they pinned a badge on me and we went through the meetings together. I met several old time friends and met quite a number of the members of the association that I had not known.

### Mr. C. E. Lockett

I was shocked when I was advised of the death of Mr. Charlie Lockett. He and his good wife have been the friends of the Morrison family over the years. Our children played together when they were youngsters, and that naturally drew us together. Julian, Jr., well expressed the joy of living on the farm near Tie Plant with the Lockett children. We went to the A. and M. College. I wrote an article in a series running in Country Life in America. Mr. Will Ed Boushe can tell you about that article I met him and showed him that check that looked large. And too, it indicated that maybe I was up in big company, as Country Life in America is a magazine for the rich.

Mr. Walter Page, then editor, wrote me a fine letter of appreciation. He advised that at anytime I wanted comment on any worthwhile cause in the south, just write him. I suggested that he be invited to deliver the commencement address at the college. I was authorized to send the invitation. He replied how much he had wanted to visit Mississippi and be in my home and that I would read in a short time the reason he could not accept. A little later press announcements stated that he had been appointed Ambassador to Great Britain.

That check spoiled me, I thought I could make more money writing than farming. I asked Julian, Jr., if he did not like the new environment as he had a good library, etc. Says he, Dad, no, I had rather go back to Grenada and live on the farm with a cave as a home than to stay here. The Lockett children and the Morrison boys used to tent on the edge of the stream that ran through the farm. They dug caves and lived the life near to Nature.

In behalf of the Morrison family we extend our sincere sympathy.

### The Warehouse

I know The Sentinel force would wonder what had happened to me if I said nothing about the warehouse and Cold Storage Plant. I was in the office of my long time friend, Editor Tom Hederman, of the Clarion-Ledger, this morning with an article about this program. He was surely busy and I took only about one and one-half minutes of his time. There was another matter I wanted to discuss with him, but he was too busy for that. We will have that out when the Fair is over. Says he, at a glance over the first page, we will have to carry the story next week.

I shall not be satisfied until these warehouses are bonded and the advantages given to the humblest farmer of the county. The selfishness should be wrung out of the program and they should be organized to serve farmers and not some individual or group of individuals. They are service institutions and should be used as such. And I firmly believe that those now employed to organize them

## District Service Office of State Tax Commission Renders Valuable Service

The District Service Office of the State Tax Commission, located in Room 4, Bright Building, Greenwood, Miss., renders a variety of services to the taxpayers of this District. This office serves the following counties: Attala, Carroll, Grenada, Holmes, Humphreys, Leflore, Montgomery, Sunflower, and Washington. It makes available to the public a constant supply of sales tax tokens, tax forms, and reports; and also the latest rulings and regulations relating to the application of the various tax laws administered by the State Tax Commission. There are also trained Auditors and Field Representatives working out of this office. Their duty and desire is to be of every possible assistance to the tax-paying public. This office was established in Greenwood by Mr. A. H. Stone, Chairman, of the State Tax Commission, in May, 1936. Since that time, tax-payers, in constantly increasing numbers, are finding it to be of real benefit to them in solving some of the perplexing problems connected with their tax matters.

The sales tax revenue of the counties in this district has shown an increase of 27.3% during the first six months of 1937 over the first six months of 1936. A large part of this increase is due to a greater degree of efficiency in tax administration, resulting from the creation of the District Offices. However, the results of the work being done by these District Offices have not been confined to increased tax collections alone, important as these are to the State. One of the outstanding achievements is a better equalization of all the taxes administered by the State Tax Commission, including sales, income, tobacco, beer, franchise, amusement and state-wide privilege tax.

The personnel of this office is composed of Miss Bernice Powell, office assistant; Mr. S. L. Dear, Greenwood, representative of the Advalorem Division; Messrs. D. N. Magruder, Industrial Tax Agent, and J. C. Harris, Greenwood, Field Auditors;

## Charlie E. Lockett —An Appreciation

WHEREAS, God in His infinite wisdom did on October 2nd see fit to remove from our midst a good and useful man, our friend and brother, Charlie E. Lockett, and

WHEREAS, in his death the community has lost a good citizen, the Church a loyal and faithful member, the Men's Bible Class a regular attendant, the board of stewards a valued member, and

WHEREAS, we feel that the entire community will feel keenly the great loss sustained in his death, therefore

Be it resolved that we the members of the 4th quarterly conference of the Grenada Methodist Church do hereby express our sincere gratitude for the noble life he lived, the good examples he set, and the fine and faithful service he rendered.

Be it resolved that we assure the grief stricken family of our sincere sympathy and of a continued interest in their temporal and spiritual interest.

Be it resolved that a copy of these resolutions be spread upon the minutes of the conference, a copy sent to the family, and a copy to the local newspapers and the New Orleans Christian Advocate.

Signed,
C. A. Parks, Pastor.
C. T. Floyd, P. E.
H. H. Heath, Secretary.
Sunday, Oct. 17, 1937.

## The Grenada Cold Storage Plant To Open November 1

### Plant Will Be Prepared to Cure Pork and Store All Meats

Elsewhere in this issue of The Sentinel is an ad announcing the opening of the Grenada Cold Storage Plant November 1.

The cold storage facilities will be at the disposal of the farmers of Grenada and adjoining counties. One cold room has been set aside for curing and storing pork. Another for storing whole carcasses of beef, lambs, goats, etc. Three dry rooms will be available for storing seed, fertilizer and other farm products which do not require that they be placed in cold storage.

The Grenada County Cooperative hopes to have two more cold rooms completed and ready for use within the next few months. These rooms will be used for storing eggs and other perishable produce.

J. L. Cooley, county agent, states that it is the desire of the management to make the Grenada Cold Storage plant a marketing center for all farm products, much of which can be sold locally and, the balance held in storage for foreign purchasers when the demand is the greatest. Mr. Cooley stated that the plant offers the farmers of Grenada and adjoining counties a real service in curing meat and marketing seeds, fertilizers, poultry, eggs, hogs, beef cattle and miscellaneous farm products. Grenada County farmers need this marketing service to create more cash crops, the Cooperative must have your cooperation and assistance if the cold storage plant is to be made a self-sustaining enterprise, said Mr. Cooley.

## Swift Jewel Cowboys To Present Program At Gore Springs on 27

The Swift Jewel Cowboys, real cowboys, raised on the ranges of Texas, New Mexico and Old Mexico, and noted for punching cattle, riding herd and putting the proper punch in music you like, will present a program at Gore Springs Consolidated High School, Wednesday night, October 27.

## Speedy Session of Chancery Court

Chancery Court has been in session this week. Convened Monday morning and adjourned Wednesday afternoon. Judge L. A. Smith, Sr., with his characteristic speed and accuracy expedited business, otherwise the term might have been prolonged.

Fourteen sets of irksome chains of matrimony were severed, seven white couples and seven negro couples.

Civil cases took but little time of the court.

## Grenada Girls

M. S. C. W., Columbus, Miss.—Miss Virginia Echols and Bettye Sherwood, both of Grenada, and Miss Nellie Quinn Hayden, of Holcomb, have been made members of Bach society, musical organization at Mississippi State College for Women.

Twenty-three new members were taken into the society at the last meeting in Music Hall auditorium.

## Hagenbeck-Wallace Circus To Show In Greenwood Oct. 23rd

**Many New Features Will Be Presented This Year In This Large Circus**

When the Hagenbeck-Wallace Circus, world's largest trained wild animal show, reveals its my-

riad marvels in Greenwood the afternoon and night of October 23, diminutive Dolly Jacobs will share big-cage glory with her husband, Terrell Jacobs, master of the largest group of jungle-bred lions and lionesses ever assembled.

The Jacobs and their dangerous pets perform in a huge steel arena as one of the featured offerings of Hagenback-Wallace ,which also presents, in person and in action, "Hoot" Gibson, cowboy film favorite, riding, roping and shooting as ring-leader of his neck-risking gang of rodeo champs.

Bringing 700 persons and more than 1,000 beasts to the city aboard two special railroad trains approximateing two thirds of a mile in length, Hagenback-Wallace will be the first of the larger circuses to visit Greenwood in years. Its huge menagerie will include 26 performing elephants, and there will be 57 rollicking clowns.

## Fertilizer Grades Reducd To Eight For Coming Season

**Experimental Results Plus Farm Purchases Basis of Selections to End Waste**

Another forward step in Mississippi fertilizer history was recorded in Jackson last week when representatives of the fertilizer industry, experiment stations, state department of agriculture, and others interested, agreed upon limiting the number of grades of fertilizer to only eight, the smallest number in any state for the coming year.

A decade ago, more than a thousand grades of fertilizer—the term "grade" meaning the relative proportions of nitrogen, phosphoric acid, and potash, in the order named—were recorded in the United States, and more than a hundred in Mississippi. Mississippi led the way from disorder, when in 1928 the numbers of grades was reduced from more than 100 to only 27, and when the minimum plant food content of fertilizer was established in 16 units.

"The fact that Mississippi farmers this year supplied an overwhelming part of their fertilizer requirements from only three or four grades, indicates that still further progress is in order," stated J. C. Holton, commissioner of agriculture. "So we called together representatives of the fertilizer industry and agricultural work to discuss grades of fertilizer needed to give best returns. On the basis of thousands of experiments, the experiment stations made definite recommendations, and these recommendations, plus grades for which farmers have indicated their preference by considerable purchases, plus new grades, especially the 0-12-6 mixture for winter legumes, were found to answer all the purposes involved. Therefore, Mississippi again assumes national leadership by limiting the number of grades of fertilizer to eight, as follows:

| | |
|---|---|
| 6-12 6 | 6- 8-8 |
| 6 81 4 | 4- 8-8 |
| 4- 8- 4 | 3- 8-5 |
| 10- 0-10 | 0-12-6 |

"Mississippi also led the nation in 1928 by providing that no fertilizer might be manufactured and sold containing less than 16 units of plant food, thus ending the use of excessive quantities of worthless filler—a wasteful practice which had cost millions of dollars. Only two of the eight grades adopted for 1938 contain as little as 16 units of plant food, and the average of the eight grades is 19¼ units of plant food, which is nearly 25% more than the legal minimum."

## Eight Meetings To Be Held Over State

(By J. S. Vandiver)

The State Department of Education is conducting a series of eight meetings over the state beginning Monday, October 18. The purpose of these meetings is to discuss the school problems in general and with particular reference to the improvement of instruction. Dr. Henry Harap from Peabody College will be present at each of these meetings.

On Thursday and Friday, October 28-29, the Department of Superintendence of the Mississippi Education Association will have its regular fall conference in Jackson. This meeting will begin with a banquet Thursday evening to be followed with the first general session at 8 o'clock. Dr. C. W. Knudsen from Peabody College will be the principal speaker. The second meeting will be held Friday afternoon at 2 o'clock and will be devoted to the subject of "Guidance" in the high schools.

We are looking forward with much anticipation to these meetings and feel that much good will be accomplished in bringing about a more unified program of education in the state.

## Children In Court

A father learned yesterday in Juvenile Court that a definite means of causing a boy to steal is to tell him anything in order to avoid allowing him the means of earning a small amount of spending money.

This particular youngster was interested in a young lady in his class in the local high school and disliked seeing other boys escort her to the soda fountain or movie. Consequently, as he was forced to work at home without an allowance, he quickly took advantage of the first opportunity which presented itself to secure money by an unscrupulous method.

**When You Need a Laxative**

Thousands of men and women know how wise it is to take Black-Draught at the first sign of constipation. They like the refreshing relief it brings. They know its timely use may save them from feeling badly and possibly losing time at work from sickness brought on by constipation.

If you have to take a laxative occasionally, you can rely on

Miss Leoniese Mullen had as her guest last Wednesday night Miss Claudine Lane, and Thursday night Miss Dorothy Tribble.

Born: Sunday night, October 17, to Mr. and Mrs. Mack Hook, a seven and one-half pound girl. The young lady has been named Jewell Januita.

doing well. Mrs. Dever is the former Miss Margaret Best. The young gentleman has been named Clyde Raymond.

## *Paragraphs From J. K. Morrison*

(Continued from page 1)

will come to that same way of thinking.

The big final parade has just passed the office where I am at work. The curtain today goes down on the best and biggest Fair we have ever had. The parades are the best that I have ever seen. The Jersey exhibit was so fine Old Timer Higgins and Mr. Walters deserve some praise. The beef cattle show was good, not so big, but fine quality. What a pity that Grenada county farmers do not get some pure bred beef bulls and raise some high grade beef cattle? Please sir, give me a little space later to discuss this with your readers. Just look what we are coming to again with such a huge cotton crop! Cottonseed meal is cheap, there is much hay, never a better time in the history of the country for farmers who have a few head of cattle to go borrow some money, if that be necessary, buy some cotton seed meal and hulls if needed, maybe use some corn to balance the ration. It would beat cotton raising and give something to do in the winter season.

**Mr. Percy Hewitt**

I was in the Clarion-Ledger office last night. Just up to meet the boys that write the grist for the big presses to grind into printed news for their readers. The Clarion-Ledger has jumped from a small circulation of around 10,000 to about 35,000 in a mighty short time. I was greeted by Percy Hewitt, who sits at the desk over in the corner to pass on the copy, writes the sports column and does any job that comes to hand. Percy says thank you for your comment on the union of the two papers. They are just as much a part of Jackson as the churches, the schools or the State capitol. Just across from Percy's desk is Erle Johnston, starting from down some where near the bottom of the ladder, but his eyes are looking toward the top. That interview that appeared in the Clairon-Ledger several months ago with the war veteran was fine. It showed ability.

Mr. Gibson is another familiar figure to me, I knew him when he was with the Commercial Appeal. He writes the column Toast and Coffee in the Clarion-Ledger, just a side line. Gathering news here and yonder is his big task. This column is different. We are always looking for something that does not follow beaten tracks.

**Louis Toler**

My friend, and Kenneth's youngest brother, has decided to make news. He is going to marry Saturday, October 23, at Eupora. The young lady that is helping to make the story, is Miss Keigney, daughter of Senator Mc Keigney. Louis is the city circulation man for the Commercial Appeal and pinch hitter for Kenneth.

I wish for Louis and his future mate smooth sailing on life's matrimonial sea. A bit of advice from one of experience. Married life is largely what two people make it. Sailing gets mighty tough at times. Storms are turned loose, not by the god of the winds, as the Greeks knew old man Aeolus. This gentleman a,coerding to the Greek myths, kept the winds confined in a cave on an island of the sea. He could give the sailors any kind of wind he wanted to.. He had them in the bag.

Louis and the madam can have the same power in their love home, gentle zephyr can be turned loose, a whirl wind or a storm. It does not take both to raise the storm.

I think I shall present them with a barometer to measure the weather of the household. It will measure whether everything is smooth and calm. It will predict a whirlwind long before it reaches them.

**Less Monthly Discomfort**

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well-worth trying. Of course, if not benefited, consult a physician.

**Twentieth Century Club**

The Twentieth Century Club met Tuesday afternoon in the lovely home of Mrs. H. L. Honeycutt with Miss Estelle Turner as co-hostess.

Beautiful fall flowers added their charm to a very enjoyable program.

Continuing the study of "Modern Plays and Playwrights," Mrs. Cowles Horton charmingly rehearsed the play—"You Can't Take It With You," by Moss Hart and George Kaufman.

This play was first produced at the Booth Theatre, New York City, Monday night, December 14, 1936, and has become the outstanding comedy hit of the day. Mrs. Horton witnessed this play in this same theatre in New York City this fall.

Mrs. R. L. Vandiver went to Memphis Friday night to see the play she rehearsed on the program. It was "Tovarich" by Jacques Deval, another reigning comedy hit of New York, London, and she, too, pleasingly presented it with all its charming merriment.

The club voted to present these two Pulitzar prize winning books to the Public Library, where Grenadians may read them before they appear here on the screen.

As a special number on the program, Miss Mary Douglas Honeycutt entertained the club with a piano selection, "The Flower Song," after which the hostesses assisted by Mrs. Jim Keeton and Mrs. James Shaw, served delicious individual apple pie, with salted nuts and coffee.

There was present twenty-five club members and the following guests, Mesdames S. J. Simmons, Gene Marders, S. A. Morrison, Jim Keeton and James Shaw.

—:—

Mr. Everette Taylor, of Draughon's Business College, at Memphis, spent the week-end with his parents and sisters, Mr. and Mrs. J. W. Taylor, Vera, Papline, Hilda, Annie Frances and Johnnie Dean.

—:—

Miss Vera Taylor, Mr. Winfred Tanner and his aunt, Mrs. John McCullar, of Tie Plant, were visitors at the Fair in Jackson Friday.

—:—

Griffis Meek, of Southwestern University, spent the week-end with his mother and father, Mr. and Mrs. T. H. Meek.

—:—

Miss Lucy Webb Sharp, student at Ole Miss, spent the week-end with her father, Dr. J. S. Sharp.

—:—

Messrs. T. H. Meek, W. E. Jackson, Joe Neely and Roy Doak left Monday for Aransas Pass, Texas, on a fishing trip.

—:—

**Heinz Dill Pickles in bulk, French Market.**

—:—

Miss Sara Parks, of M. S. C. W. visited her parents, Rev. and Mrs. C. A. Parks, this past week-end.

—:—

Mr. and Mrs. Herman Heath left Sunday for Amory to visit their mother, Mrs. R. M. Condrey.

—:—

Messrs. Andrew Carothers, C. Jones, Clark Gentry, Joe Jackson and Rev. C. A. Pharr, attended a church meeting in Sumner Thursday.

**Mrs. Estes Hostess to Her Friday Bridge Club**

Last Friday afternoon, Mrs. J. N. Estes entertained the members of her Friday Bridge Club, in the home of Mrs. S. H. Garner, on Snider Street.

Vases of gaily colored fall flowers were placed in the rooms to add to the attractiveness of the occasion.

The only guest besides the regular club members was Miss Lillian LeGardeur, of New Orleans, who is the house guest of her sister, Mrs. Charles Dickenson.

After the games, Mrs. W. A. McCool proved to be the fortunate winner of high score prize, an order for a box of Christmas cards.

Mrs. Estes served her guests iced coca-cola and tasty sandwiches.

—:—

Mrs. Ernest Penn left Tuesday for Amory for a visit with her mother, Mrs. R. M. Condrey. While there Mrs. Penn will take part in a pageant celebrating Amory's fiftieth birthday.

—:—

James Prose and Cleon Proby, of Mississippi College, spent the week-end with their parents.

—:—

Misses Joyce Matthews, Nancy Nelson Granberry and Bettye Sherwood, of M. S. C. W. spent the week-end with their families.

—:—

Miss Marjorie Dulweber, student at Holmes Junior College, was home for the week-end.

—:—

**New Crop Honey, French Market.**

—:—

Mr. and Mrs. Arthur Meredith, Miss Elizabeth Rose and Mr. Tobe Isenberg spent Sunday in Jackson.

—:—

Mr. and Mrs. Monroe Short, Jr., of Sledge, spent Sunday with their brother, Bill Short.

—:—

Rev. and Mrs. J. C. Floyd, of Sardis, were the guests Sunday of Rev. and Mrs. C. A. Parks. Rev. Floyd is presiding elder of the Grenada-Sardis District, and held the services at the Methodist Church Sunday.

—:—

Mrs. T. W. Rose, Sr. Miss Mary Rose Mrs. George Murray, Tommy, and Lynn Rose, were the guests Sunday of Mr. and Mrs. Edwin Austin in Winona.

—:—

Misses Eloise and Ruby Taylor, of Ole Miss, spent the week-end with their parents, Mr. and Mrs. D. M. Taylor.

—:—

Mr. and Mrs. W. S. LaGrone, of Ansley, La., are visiting in the home of their son and daughter, Mr. and Mrs. P. T. LaGrone.

—:—

Miss Byrd Sharp left Wednesday for Texarkana, Texas, where she will spend the winter with her sister, Mrs. Andrew Hauze. Mrs. Donald Sharp and little daughter, Donna Jean, accompanied Miss Sharp to Texarkana for a ten days visit.

—:—

Mesdames E. R. Proudfit, Gene Marders, H. M. Talbert, A. N. Rayburn, and Gaston, are in Greenville for a state-wide convention of the Parent-Teachers Association.

## "The Mississippi Delta School"

Above is shown a corner of the large reception hall at Draughon's Business College of Greenwood. Those young men and young women who contemplate entering a school of this kind should bear in mind that "The Mississippi Delta School" is one of the few exclusively high class business training institutions of its kind in the entire South, and inasmuch as character and scholastic references are required of every enrollee, those entring this school are assured that they will be surrounded by an unquestionably wholesome and refined atmosphere while preparing themselves for worthwhile employment.

## DELTA SCHOOL PLANS LARGE EXPANSION

### Draughon's College Is One of Few Inexpensive Schools

Due to the unexpected large number of fall enrollees, officials of Draughon's Business College of Greenwood, Mississippi, have announced plans to enlarge the Greenwood school to more than double the present seating capacity. The new addition, work on which is to begin within the next few days, will be used as an additional study hall and general assembly.

"We are indeed pleased with the response and support accorded our new school since its opening last spring," said the president, R. H. Schilling, recently in an interview, "and assure the public that the new addition, together with the added equipment, which includes a number of modern office machines, will place our college among the foremost institutions of its kind in the South. We endeavor at all times to give the student the highest type of training, and our requirements that the prospective student furnish satisfactory character and scholastic references will assure the student of business that he will be surrounded by an unquestionably wholesome and refined atmosphere while preparing for a successful business career at the Mississippi Delta School.

Draughon's College of Greenwood specializes in individual instruction, necessary to thoroughness and rapid advancement, and inasmuch as this school is located away from the large city with its many temptations and distractions, the student is able to finish his course in a surprisingly shorter time than that required in other schools. The young man or woman who plans to enter a school of this kind should bear in mind that as this is the only business school in the entire Delta section, the richest cotton producing area in the country, they have the assurance that the affiliated employment department of this school will place them in well paying positions just as fast as they are qualified to hold such positions.

The call for office workers from throughout North Mississippi have greatly exceeded expectations, and fully half of these good positions go unfilled because of the scarcity of efficient and well-trained workers. Greenwood, the most outstandingly Progressive city of the Mississippi Delta country, offers wonderfully attractive opportunities to the individual who has prepared himself to take his place in the world of business, and is not so large a city that its activities disrupt the student's concentration thereby causing him untold added expense because of the longer period of time required to finish under such conditions. Inquiries and visitors are always welcome at "The Mississippi Delta School."

**Friday Bridge Club**

Mrs. H. L. Honeycutt was hostess last week to the Friday bridge club. Vases of lovely fall flowers were used throughout the home. Mrs. Honeycutt served coca-cola, apple pie and coffee to her guests who were besides the club members, Mesdames Dick Smith, Jim Keeton and P. H. Youngblood.

Mrs. Eli Whitaker won high score prize.

—:—

**New mackerel, several sizes, French Market.**

—:—

Mrs. Frank Mohead, who has been visiting her parents, Mr. and Mrs. Claud Hall, returned to her home in Carroll county Wednesday.

—:—

Mrs. Lynn Parker and little daughter, Lynice, returned to Greenwood after a few days visit with Mr. and Mrs. Claud Hall.

—:—

Mrs. O. F. Lawrence, after visiting Mr. and Mrs. J. R. Yerger, Jr. of Greenville, for the past ten days, returned to Grenada Wednesday.

—:—

## WHAT VISITORS THINK OF GRENADA

From the Commercial Appeal—Tri-States Rambler:

### A GOOD TOWN—GOOD FOLKS

(By George M. Moreland)

While waiting in the railroad station at Memphis to catch a train to make this trip to Grenada, the radio broadcast man from WMPS station at Memphis approached me, among others, in the waiting room for a brief broadcast of where we were going, who we were and other things. When the young man asked me where I was going it was with pride that I replied, "To Grenada, Miss." I was glad to let the popeyed world know through the accomodation of WMPS that I was on my way to Grenada.

It was night when I reached Grenada, but next morning when I rose after a comfortable night's rest in one of the city's hotels I sallied forth to "see what I would see" at Grenada. A representative of this newspaper ought to feel at home at Grenada because, be it remembered, in 1862 when Memphis fell and the old Memphis Appeal, now the Commercial Appeal, was chased out of the city along with the Southern armies, it was published temporarily at Grenada.

I had no set itinerary at Grenada. I simply browsed about town, met the folks, and had a big time. Grenada is a good town and I'll tell you why it is a good town. It's a good town because it is filled to overflowing with good folks. Communities are exactly as good, or as worthless, as the people who compose the citizenship .The people of Grenada are friendly, progressive, highly cultured, and possess lofty ideals.

I met Homer Williams while at Grenada. By vocation he is "the moving picture man" at Grenada. As a side line he represents Grenada County in the Mississippi Legislature, but only as a side line, so don't hold that against him. Every individual has one aspiration in life, or even two or three, that surpasses all others. Homer Williams has two high aspirations in life. One is to listen to the baying of the hounds over in the Yalobusha swamps while chasing a fox over the countryside. The other aspiration is to see the amusement tax abolished in Mississippi. He gratifies one of these aspirations weekly by going fox hunting. The other he insists he will gratify—and he said it with sparkling eyes, too—when the Legislature meets at Jackson next January.

I dropped in at the office of The Grenada Sentinel to have a chat with my gifted young friend, Rice Lawrence, editor. He is "a chip off the old block" because his lamented father was for many years one of Mississippi's outstanding editors—a man whom everybody loved.

While at Grenada I had the honor of shaking the hand of my distinguished young friend, Congressman A. L. Ford, of Ackerman, representative from the fourth congressional district. He called me instantly by name, but that is not an unusual feat for this ingenius and able young statesman to perform. It is said that he can call by name a great number of the citizens of his congressional district. I believe it because only once before in his life had he ever seen me, and that very briefly, but when he met me at Grenada instantly he called me by name and inquired about my work, my health and other friendly inquiries. It is not necessary for me to tell you that Congressman Ford is an able statesman. The peopeople of his district have already told you by their votes.

It was a good time I had at Grenada. Naturally I would have a good time because Grenada's a good town filled with good folks.

In our editorial of September 30th "GRENADA IS A GOOD TOWN AND ALWAYS WILL BE" we had this to say:

During the last several weeks we have heard a lot of talk about Grenada being a bad town in many ways—that we have no law and order here—that we have a black record afar and abroad. In other words, Grenada has been pictured as a second Herrin, Illinois.

We cannot see Grenada in this light. For many years we have heard the expression (and know it to be true) that THE PEOPLE MAKE THE TOWN, and that is our reason for making the statement that Grenada is a good town and always will be, for we know that we have just as many good people here in Grenada as any other town in the world. We have had good people living in Grenada for a hundred years. We believe the teachings and the kind of blood that was in our great grandfathers and mothers has passed on down the line to the present generation, and will pass on through the generations to come. You cannot tell us the teachings and training that has been given by all our good old fathers and mothers, many who have passed on years ago to their reward, will not live forever in the lives of their sons and daughters left behind.

Grenada has the finest churches and schools and the best of preachers and teachers of anywhere. With all these things we cannot see how Grenada can be classed as a bad town. We still say that GRENADA IS A GOOD TOWN IN WHICH TO LIVE AND NOT A BAD TOWN AT ALL. * * * *

We suggest to the citizens of Grenada that they boost our town. It does you no good to knock it. It will do you good to boost it. Whether you believe it or not, we have the best people in the world living right here in Grenada County. True, we have some bad ones. But what community hasn't? If you think we have a bad town, keep your mouth shut. If you think we have a good town, tell others. Then, if you think we have a bad town and don't think you should keep your mouth shut, do something about it and keep your mouth shut anyway.

## OUR GASOLINE TAX

We are in receipt of a propaganda release by the American Petroleum Industries Committee which, we believe, very misleading. We quote:

"Mississippi motorists this year will pay $3,000,000 more in gasoline taxes than they paid in 1935, Herbert Nunnery, of Jackson, Secretary, Mississippi Petroleum Industries Committee, asserted today at a nine-state conference on automotive taxation being held this week under the auspices of the American Petroleum Industries Committee. * * * *

"Last year gasoline consumption in Mississippi showed an increase of 23.2 per cent. A comparable gain is taking place this year. For the first seven months of 1937, gasoline consumption in Mississippi shows a gain of 17.9 per cent. With increasing gasoline tax revenue, the State should be able to revise its tax rate and give the motorists much needed relief in the form of lower gasoline taxes, continued Mr. Nunnery * * * *."

To begin with, Mr. Nunnery compares gasoline tax collections of 1937 with collections of 1935. Why does he not compare collections of 1937 with those of 1936? There were very few gasoline tax collections made in 1935, or prior to May, 1936. We would call them donations made by public spirited citizens. The legislative investigating committee has proven this. We cannot believe that the Petroleum Industries Committee has at their disposal any accurate records of gasoline consumption in Mississippi prior to the creation of the Motor Vehicle Commission, which came into existence in May, 1936.

From May 1st, 1936, to the 15th day of September, 1937, gasoline tax collections in Mississippi show an increase of 40.3% over the period May 1st, 1934 to September 15th, 1935 and for the period May 1st, 1936 to September 15th, 1937 an increase of 22.8% over the period May 1st, 1935 to September 15th, 1936. In other words, for the first seventeen months period after the creation of the Motor Vehicle Commission, Mississippi gasoline tax collections showed an increase of 40.3% over the preceding seventeen months. Is anyone so foolish to think that Mississippi motorists paid 40.3 percent more tax during the first seventeen months after the creation of the Motor Vehicle Commission than they did the preceding seventeen months? We don't believe so. A comparison of collections for 4½ months in 1936 with the same period in 1937 shows an increase of 12 percent. This increase indicates better business in 1937. Then what became of the difference of 28.3 percent shown by comparison of collections for the first seventeen months period of administration of gasoline tax collections by the Motor Vehicle Commission and the seventeen months period prior to the administration of this law by this department? Simply this, the State of Mississippi failed to collect 28.3 percent of the tax money which rightfully belongs to the State and counties.

It seems to us that the American Petroleum Industries Committee is trying to "kill the goose that lays the golden egg." Mississippi is attempting to build improved highways, and this initial program is only a small beginning. An additional road program will no doubt be launched during the next session of the legislature. Mississippians have made up their mind that they want good roads, and they are going to have them. We now have one of the best secondary and farm-to-market systems in the United States and, according to the Vice-President of the U. S. Automobile Manufactures Association we will have one of the best primary systems when completed.

Here is what he says: "Mississippi is completing the fastest and most modern system of highways in the world." The more highways, the larger consumption of gasoline and it is our prediction that in the years to come instead of a gross gasoline tax revenue of eleven or twelve million dollars a year the tax will run nearer twenty million dollars.

Since the creation of the Motor Vehicle Commission $1,283,000.00 in highway bonds have been called and paid off before maturity. Calling of these bonds represents a saving to the taxpayers of Mississippi of $860,055.00 in interest alone. When we have completed our highway system and retired our bonds it will then be time to discuss the reduction of gasoline tax in Mississippi.

With the Petroleum Industries Committee advocating a reduction in the gasoline tax, Senator Richey advocating repeal of the sales tax, Legislator Homer Williams demanding abolishment of the amusement tax and somebody else insisting that we have no advalorem tax, we are just wondering where the State is going to get money to build roads and operate our state institutions.

## *Glen Peeples Won 2nd Place at Fair*

(By L. H. Stubblefield)

Glen Peeples, Grenada High School 4-H member, won second place at the State Fair at Jackson on Improved Spanish Peanuts. Glen has been outstanding in 4-H club work this year as well as in the past three years.

At State Club Congress, Glen made the highest average of any contestant in the crop judging and seed identification contest to win a place on the Mississippi Crop Judging Team. This team won first place at the Tri-State Fair, Memphis. This winning at Memphis placed Glen on the Mississippi team which will represent the State in Chicago at the International Grain and Livestock show in December.

## POSTED NOTICE

Our land in Sections 12, 13, and 14, all in township 22, rage 4 east and known as the Gibbs place, is posted against hunting, fishing and trespassing of all kinds.

## Still Coughing?

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

## *Planning Meetings To Be Held Period Oct. 20th-Dec. 2nd*

### Purpose of Meetings Is to Set Up Objectives In Home Demonstration Work

State College, Miss., Oct. 20—A series of country home demonstration program planning meetings will be held in Mississippi during the period from October 20 to December 2, announces Miss May Cresswell, state home demonstration agent.

The purpose of the meetings is to set up objectives in home demonstration work in each county for 1938 and, with the help of local leaders, work out plans for reaching these objectives.

The program planning work is in charge of Miss Kate Lee, program planning specialist, and Miss Jewell Garland, in charge of rural women's organizations.

The county home demonstration agents will take the lead in the work in their counties assisted by the various project leaders, 4-H club leaders, county council members, the extension specialists and the district agents.

The meetings are as follows: October 20, Lee county; October 22, Clay and Issaquena; October 25, Copiah; October 26, Lincoln, Monroe and Warren; October 27, Humphreys, Harrison and Lafayette; October 28, Leflore and Union; October 29, Marshall and Newton; October 30, Clarke, Prentiss and Rankin.

November 1, Attala; November 2, Claiborne and Leake; Nov 3, Noxubee and Yazoo; Nov. 4, Choctaw, Marion and Montgomery; Nov. 6, Simpson; Nov. 9, Lamar, Winston and Yalobusha; Nov. 10, Forrest, Holmes and Neshoba; Nov. 11, Lauderdale, Tallahatchie and Walthall; Nov. 12, Chickasaw, DeSoto and Jasper; Nov. 13, Jefferson; Nov. 17, Hinds and Grenada.

November 18, Panola, Pike and Scott; Nov. 19, Coahoma, Kemper and Madison; Nov. 20, Lowndes, Oktibbeha, Washington and Wayne; Nov. 22, Alcorn and Sunflower; Nov. 23, Lawrence, Sharkey, Smith and Tishomingo; Nov. 24, Pontotoc, Jones and Pearl River; Nov. 26, George; Nov. 27, Carroll, Covington and Jeff Davis; Nov. 29, Amite and Bolivar; Dec. 1, Adams and Jackson; Dec. 2, Stone and Calhoun.

JINEY JUNGLE

"SAVE A NICKEL ON A QUARTER"

Last week we told of the actual savings in dollars and cents that can be made by trading with us constantly. You probably said to yourself ,"How can they do it? Do they buy their merchandise cheaper than the average store?" That would be the logical reaction for you to have. Well . . . as a matter of fact, we do have a buying power that is almost national in its scope, but for arguments sake . . . let's assume that we pay the same as any store. Even in the face of this assumption we can still SAVE you money due to the fact that we sell for CASH only. This feature eliminates two major expenses . . . cost of delivery and loss on bad accounts. Delivery includes the salary of an extra person, and the cost of a telephone, not to mention the cost and operation expense of a truck. It is easy to see that these two items would run into a sizable sum of money . . . and since salaries and other expenses must be paid from profits . . . it is only reasonable that we can get by with less profit when such expenses are entirely eliminated. THAT'S WHY WE CAN GIVE YOU THE EXTRA DOLLARS TO PUT IN THE JAR FOR CHRISTMAS. (To be continued next week.) "YOUR RED AND GREEN FRONT GROCERY STORE."

## SWIFT JEWEL COWBOYS

The Swift Jewel Cowboys, a regular feature of Station WREC, Memphis, each Monday, Tuesday and Wednesday, who will present a program at Gore Springs Consolidated High School, Wednesday night, October 27th.

by WALKER WOOD
SECRETARY OF STATE

Every city, town and community, and even States have their regular or stated news-making events, in addition to those happenings that make news, good or bad, but that were not necessarily expected But the big, Free Mississippi State Fair in Jackson in October of each year is a stated news-making week's event for both the city of Jackson and State of Mississippi, and this year it was bigger and greater than ever before. There were six big days filled with something of joy and interest every minute. Those citizens who had visited this fair in previous years, found much improvement in the general lay-out of the exposition this year.

Quite a number of improvements had been made, to-wit: A new fair ground assembly hall, for luncheons, banquets, conferences, and mass meetings, etc. also the New Hugh White Industrial Building, in which were housed the evidences and exhibits of Mississippi's rapid development in an industrial way.

Then, the agricultural, horticultural and liberal arts buildings were removed and dressed up rather extensively. All the livestock, poultry, dairying, fish and game, forestry and other buildings were dolled up this year to make them far more attractive. The general fair grounds were enlarged, the midway was widened and improved to give much additional room for both exhibits and the crowd of visitors that thronged it day and night, and quite a lot of free parking space was added to enlarge the accomodation for the public.

Not only is the big Free State Fair one of rare advertising value to the State and informative to its people, but the concessions and shows were of high class and clean exhibitions. Next year it is promised that it will be still larger and better.

At a recent meeting of the State Planning Commission, a program of activity was adopted, with the approval of Governor White. This program included: (1) Land Use Studies in Mississippi. (2) Water Resources and Water Problems in Mississippi; (3) Natural Resources in Mississippi; (4) Social Studies in Mississippi; (5) Rural Electrification in Mississippi.

Since the adoption of this program the Commission has occupied itself in making studies along each of these lines, which studies are to be included in a program report to the Governor and the Legislature in the next two months. This report will also include recommendations for other studies to be made in the future.

Capitol and state circles were grievously shocked last week to learn of the sudden death on Wednesday of Chairman Brown Williams of the State Highway Commission, which occurred at his home near Philadelphia. Commissioner Williams had been in failing health for some two or three years, but his death was not expected at this time. The funeral of Mr. Williams occurred at 3:30 o'clock, Thursday afternoon.

The State Fair is an important institution and is doing a signal part in the development of the State's agricultural, commercial and industrial interests.

Dr. Dunbar Rowland, director of Archives and History, was returned to his home a few days ago, after being treated in a Philadelphia hospital, and later in a Memphis hospital for several weeks. Mrs. Rowland has been with the Doctor during his absence, and their friends will regret to note that Dr. Rowland is in quite a critical condition.

Hon. Greek L. Rice returned a few days ago from a very enjoyable trip to Kansas City, Mo., where he attended the National Convention of Attorney Generals of the Nation. Our attorney general made a most creditable showing among his fellows of the other states.

Friends over the state will be glad to learn that former State Treasurer Lewis May, who is at present bond clerk of the Treasury Department, is much improved, after several days treatment and operation in a Jackson hospital.

Hon. J. C. Shivers, a prominent member of the Poplarville bar, was appointed last week to succeed Judge Harvey McGehee, of Columbia, as Circuit Judge of the fifteenth circuit court district, composed of the counties of Pearl River, Jefferson Davis, Marion, Lawrence, and Lamar. Judge Shivers is holding his first court at Monticello this week, and will convene court at Poplarville next week.

Friends throughout the state of U. S. Senator Pat Harrison, extend sympathy to him and his entire family, on the death of his aged mother which occurred at Crystal Springs last Thursday. The funeral occurred at Crystal Springs on Friday.

Governor White has issued his proclamation, setting aside Monday, October 27th, as "Navy Day," this movement being under the sponsorship of the U. S. Navy League, and endorsed by the Secretary of the Navy at Washington. Numerous Mississippians have served in the U. S. Navy with distinction, and therefore Mississippi is right proud of the nation's navy.

## Children In Court

Thousands of small cities and villages continue to have high per-capita juvenile crime rates simply because they refuse to supervise and direct the recreational activities of their young men and women into harmless and healthful channels.

Boys enjoy the spirit that motivates the gang and cannot be housed in the back yard. There is little need to attempt to break up a group of youngsters for they invariably congregate in out of the way places. To deal out harsh punishment to a boy who insists on meeting his friends does not solve the problem but causes him to become hardened and bitter toward life. Unless such districts provide supervised recreation for their youth, they will continue to provide Dillingers for the large cities to cope with.

## WASHINGTON PARADE

By Ray Walter JOHNSON and PIERCE

Washington, D. C.—Little boys used to be told not to believe more than half of what they saw—and nothing that they heard. Pity the Washington correspondent who is allowed to see very very little and to hear—too much. To sift—to weigh—to find the news that matters—in all the babble of talk. Try it yourself. For instance-the story: That the supreme court will never rule on the eligibility of Justice Black because if they once bar an appointee it would make the court for all practical purposes the arbiter of its own membership—and that would be the straw that would bring about a constitutional amendment curbing the whole federal judiciary.

They say: That army and navy heads as well as state department men insist that Japan must be checked before she acquires the vast resources of China because then it will be futile for any one nation—meaning us—to oppose her.

And did you know: That American buyers cancelled their orders for nearly all Japanese products which have to be stamped 'made in Japan' but have increased the orders for raw silk of which we already buy eighty per cent.

They say: That all Italian and German training officers have been recalled from the Chinese armies by their governments to emphasize the new Nazi-Fascist-Jap accord.

They say: That the threatened passage of an anti-lynching bill is a club held over the heads of the rebellious Southern Democrat Bloc to force them into line on administration measures and that the bill could be passed if sentiment in the West and North was aroused.

They say: That beef on hoof which will be graded "choice" and "good" is bringing the farmer seven and one-half cents a pound but the housewife is paying over fifty cents a pound and that—even discounting the waste—the profit to somebody is three to four hundred per cent.

They say: That the reason bank deposits are low is because of heavy investments in industry and the reason the Wall Street stocks are low is because the heavy investments are not in the old line stocks but in brand new enterprises.

And did you know: That half of the margin accounts in brokerage houses are imperative under the present law until the would-be financiars put up more margin.

They say: That the huge C. I. O. vote in the Detroit primary was the factor that finally decided Father Coughlin to go off the air.

They say: That the late Odgen Mills, Mr. Hoover's Secretary of the Treasury, died from too strenuous physical training to keep himself fit to tackle the job of being President of the United States of America—which job he confidently expected to fill come the year of our Lord nineteen forty.

## *Stellar Radio Names To Appear Here Under Tent*

### Lew Childre To Head Notable Talent Array On Visit To Grenada

On Wednesday evening, October 27, Grenada's amusement going public will be treated to an outstanding innovation in the field of popular - priced entertainment when Ollie Hamilton, one of America's better known showmen, brnigs his tented Radio Barn Dance to

town for one performance only.

Nationally known, and headlining an unparalleled aggregation of other familiar radio names, Lew Childre, "the boy from Alabam' ", star of Station W. W. L. New Orleans, will positively appear in person at each and every performance rain or shine! Lew's side-kick, Wiley "Flash" Walker, will be seen in conjunction with this feature as, too, will Uncle Ezra Fletcher and his Radio Gang.

Numbered among others lending further support and colorful enhancement to this splendid, attraction are: "The Three Dancing Buddies"; Naomi Barrett, blues singer; Dolores Fraus, acrobatic dancer; Keller and Williams, "the Twin Dancing Pals" of Texas Centennial fame; Johnny Finch; Kirk and Kirk; and "Ponchita" with her Rhumba troupe of exotic, glamorous gloriously-gowned girls, presenting the Dance of the Argentine.

Housed in a huge, waterproof tent theatre seating 3,500 people, transported upon a fleet of specially built trucks and busses, and carriyng its own light plants and special scenic effects, the Ollie Hamilton Radio Barn Dance company will show on the Hoffa lot on Depot Street. Doors open at 7 p. m. and the performance starts promptly at 8 p. m.

THRIFTY MOTOR OIL BUYERS EVERYWHERE

Save 5 ways with Lion Naturalube

REMOVES CARBON AND ADDS POWER

STRONGER NATURAL FILM GIVES GREATER MOTOR PROTECTION

1. SAVES CARBON CLEANING
(A) Piston with heavy carbon deposit. Lubricated with nationally known, premium quality motor oil.
(B) Piston lubricated with Naturalube. Hard carbon deposits removed by Naturalube.

2. SAVES WEAR AND REPAIRS
(A) Bearing and cup badly damaged. Lubricated by nationally known, premium quality motor oil. Oil film destroyed with 2,400 pounds pressure at 120 degrees F.
(B) Bearing and cup lubricated with Naturalube. Oil film undamaged with 16,000 pounds pressure at both 120 degrees F. and 400 degrees F.
(Results of laboratory machine tests)
(Drawn from actual photographs)

3. SAVES GASOLINE
By removing hard carbon from rings, pistons, valves and plugs, Naturalube adds power. Gasoline mileage is increased as a result of added power.

4. SAVES IN OIL ADDITIONS
Naturalube saves oil because it actually resists vaporization and breakdown.

5. SAVES ON OIL PURCHASES—PREMIUM QUALITY FOR 25c A QUART
Naturalube lubricates better and with a greater margin of safety than other premium quality motor oils. Costs less.

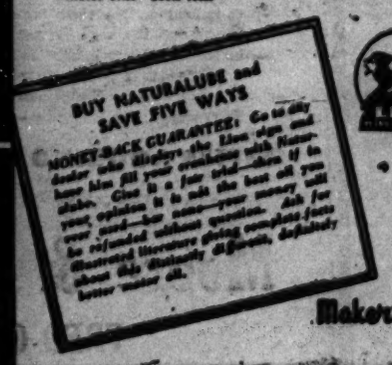
Naturalube saves five ways because it checks the chief causes of needless waste—power-destroying carbon and excessive wear. Naturalube is a pure, distilled motor oil and contains valuable properties not found in other type oils. It is refined from a rare, basically different crude by Lion's new special process. Nothing is added to give Naturalube its phenomenal film strength and its ability to remove carbon.

REMOVES CARBON—SAVES WEAR

An important feature of Lion Naturalube is its ability to remove power-destroying hard carbon from rings, pistons, valves and spark plugs. By removing hard carbon, Naturalube adds power and reduces gasoline and oil consumption.

Only a thin film of oil prevents motor parts from wearing out quickly. If this oil film breaks down, your motor will be seriously damaged and expensive repair bills will result. Naturalube's stronger natural film is your safeguard against excessive motor wear resulting from oil film failure.

Naturalube brings you the perfect combination for motor efficiency—(1) a film strength with a wide margin of safety and—(2) the ability to remove hard carbon. The next time you buy motor oil, buy Naturalube and begin saving five ways. Sold by all Lion stations and dealers. Look for the Lion.



BUY NATURALUBE and SAVE FIVE WAYS
MONEY-BACK GUARANTEE: Go to any dealer who displays the Lion sign and have him fill your crankcase with Naturalube. Give it a fair trial—then if in your opinion it is not the best oil you ever used—for any reason—your money will be refunded without question. Ask for illustrated literature giving complete facts about this distinctly different, definitely better motor oil.

## Beef Cattle Exhibits at Free State Fair Demonstrate Excellence of State Herds Being Builded to Supply Beef Industry

Beef cattle exhibits at the Mississippi Free State Fair, Jackson, this year demonstrated the excellence of state herds being builded to supply seed stock to rthe commercial beef industry which yields farmers of Mississippi annually $10,000,000. Tree view herds of Herefords and one of Aberdeen-Angus divided honors and premium money in a show acknowledged one of the best ever held in the State by Mississippi breeders; and Miss Mabel Stire, fair secretary-manager, received many fine compliments from spectators and exhibitors, according to Paul F. Newell, extension animal husbandman and department manager, on the reinstatement of this division.

Hereford exhibitors were E. Arrington, Brookhaven; E. W. Sanders, Crystal Springs; and F. D. Barlow and Sons, Hermanville. Oakhill Farm, Michigan City, Aldrich Brothers, owners, exhibited "Quercus" Aberdeen-Angus. These herds competed only unofficially, as they are still practically in working clothes, and will be shown fitted along with other state herds on the 1938 spring circuit. Nevertheless, they presented such an attraction as had not been congregated in Mississippi since the days of Dolly Rupert and Point Comfort 24th.

Mr. Arrington's Real Prince Domino Herefords, in unofficial competition, his herd sire prospect Real Prince Domino 59th not competing in championship classes as he had not recuperated from being moved to his new home, captured 5 firsts, 3 seconds, 1 third, 1 championship, and 1 reserve championship. Mr. Sanders' Anxieties took 7 firsts, 2 seconds, 1 fourth, and 1 reserve championship. F. D. Barlow and Sons' Publican Domino—Haselford Tone cattle won 3 firsts, 2 seconds and 1 championship. Aldrich Brothers' "Quercus" Angus, without competition, swept the boards clean with 15 entries.

Barlow showed the first prize junior yearling and grand championship Hereford bull in their thick low-set Publican Domino 59th, the first prize senior yearling heifer, the first and second prize senior heifer calves, and the second prize pair of yearlings. They have in Malvina and Inez a beutiful pair of smooth, thick heifers that will be able to hold their own in most any company. Sanders showed the first prize aged and reserve champion Hereford bull in Don Randolph A-7, the first prize junior bull calf in Stratton Randolph by Don Randolph A-7, the second prize junior bull calf, first and fourth prize aged cow, first prize summer yearling, first prize junior heifer calf in the lovely Nancy Neal which attracted admiration in the street parade, 1st prize pair of bulls, first get-of-sire on get of Don Randolph A-7, and second for pair of females bred and owned by exhibitor. Arrington showed the first prize senior Hereford bull calf, second and third prize aged cows, first prize junior yearling heifer and grand champion female in Lady Real 49th, and the first prize summer yearling and reserve champion female in Lady Real 56th. He also had first prize pair of females bred and owned by exhibitor. The Arrington cattle needed to be seen to appreciate their superb quality.

Aldrich Brothers had the first and second prize aged Aberdeen-Angus bulls, first and second prize junior bull calves, and senior, junior and reserve Angus bull champions. Elimere 11th, the Aldrich senior herd sire, was senior and grand champion, while a bull calf of Aldrich breeding was junior champion. In aged cows Aldrichs showed four entries. Blackbird of Paige 16th was first in class and senior and grand champion. Blackbird 64th of Meadowview, the 4th prize cow in this class, was mother of the 1934 National Stock Exchange Show, (E. St. Louis) 4-H Club champion steer, and she is a half-sister of the cow which produced the 1934 International (Chicago) grand champion carcass.

Other winnings by Aldrich Brothers included first, second and third prizes on junior yearling Angus heifers, first on senior heifer calf, first on junior heifer calf.

First on get-of-sire on get of Brigadier of St. Albans and first on pair of calves by this same bull, which is now being used on the best Aldrich cows. They showed in "Dr .Cain," a growthy, smooth purebred Angus steer that promises other exhibitors interesting competition in the spring show of 1938.

## Turnip Aphid Pest May Be Controlled With Insecticides

### Derris Treatments Applied 10 to 14 Days Nicotine Every Seven days

Either a nicotine sulphur-lime lust diluted to contain 3 percent of nicotine or a derris dust diluted with equal parts of finely ground tobacco dust and dusting sulphur so that it contains 1 percent of notenonewill control turnip aphids, says H. M. McKay, extension horticulturist at State College. The derris powder concentrate may be diluted with China clay, sulphur, talc, flour, or tobacco dust alone instead of with the tobacco dust and sulphur combination, but never with lime. The turnip aphid attacks turnips, mustard, raddish, and similar crops.

Nicotine insecticides give immediate results. Derris preparations, however, are slower in action but equally effective. They also reduce injury by several leaf-eating insects which often occur on these crops. The nicotine preparations control only the aphid. Derris treatment should be repeated every 10 to 14 days, and in the case of nicotine, every 7 days. Both insecticides have been tested by the U. S. Department of Agriculture.

McKay recommends the use of these insecticides only on plants drilled in one or two rows to each seedbed. An application on the outer side of each row is sufficient when there are two rows to a seedbed. An application on each side is necessary for single rows. Treatment on turnips for greens should begin as soon as the plants are up and start to grow and continue through the growing period.

The best time to apply derris dust is early morning or late afternoon when the plants are moist with dew. The best time to apply nicotine sulphate is between 10 a. m. and 2 p. m. after the dew has dried and the temperature is high. The quantity of insecticide needed varies from 15 to 25 pounds per acre, depending on the size of the plants and the width of the row. A dust gun is recommended for these applications. A bag is unsatisfactory. As the dust must hit the aphids to accomplish the desired results, it should be directed to the undersides of the leaves.

Cultural practices that promote aphid control with nicotine and derris insecticides include row cropping, rather than broadcasting; cultivation and fertilization to stimulate plant growth and hasten maturity of the crop; plowing under, or otherwise destroying, crop refuse immediately after harvest.

## Poultry and Egg Outlook Favors Producer Profits

### Ample Supply of Feed Grains Including Wheat For Poultry Feeding

A more favorable situation is in sight for poultrymen after the first of the year, it was pointed out this week by County Agent J. L. Cooley, on the basis of the October poultry and egg situation report of the Bureau of Agricultural Economics.

Ample supplies of feed grains, including wheat for poultry feeding, and somewhat higher egg prices as compared with those this year are in prospect.

Mr. Cooley said that the more favorable feed situation as affecting poultrymen is likely to result in a larger hatch in 1938 compared with 1937, but that the supply of poultry in the first half of next year will propably be less than in the corresponding period this year.

Increased production of fall and winter broilers this year was indicated by the Bureau's report, but Mr. Cooley quoted the report as saying that "the price is not likely to be depressed to a corresponding extent, in view of the generally reduced meat supply."

Mr. Cooley reported that the consumption of poultry in the first half of 1937 was much larger than in the corresponding period of 1936, as indicated by the exceptionally large out-of-storage movement, and by the large reduction in laying flocks from January 1 to July 1 this year. But in the last six months of 1937, reduced consumption is likely because of smaller marketings. For the same reason, consumption in the first half of 1938 is expected to continue low.

Poultry storage stocks are expected to be less in the first half of 1938 than in the corresponding period of 1937. With probable smaller marketings of eggs, storage stocks of eggs also are expected to be smaller in 1938 than they have been throughout this year.

The size of the farm flocks, the report pointed out, has fluctuated quite regularly in 3-year cycles, the last low point being in the winter of 1934-35. It is expected that the winter of 1937-38 will mark another such low point, but that by the fall of 1938 laying flocks will be larger than in the fall of 1937.

## Much Money In Growing of Trees

Money is growing in trees over thousands of acres of Mississippi pinelands, says E. H. White, extension director, and the crop can be harvested at 5 to 10 year intervals for generations to come if properly handled.

Estimates by the Forest Service of the U. S. Department of Agriculture indicate that it is possible to increase the annual growth rate of pine timber up to four times the rate of unmanaged woods by treating timber as a crop. But White points out that if indiscriminate and clear cutting is practiced and burning of woodlands is allowed, then income from southern pine woods is likely to dwindle and there may be an actual shortage of merchantable timber in some localities.

A recent Forest Service survey made over 42 million acres extending from North Carolina along the Atlantic and Gulf Coasts to Texas and inland approximately 125 to 150 miles reveals that pine growth in the area amounts to 8 million cords a year. Wood-using industries already established and not including the new pulp mills are already using more than 7 million cords a year and the 12 big pulp mills now built or being built are expected to use more than 2 million cords. Thus the use will exceed the present growth by a million cords a year and in some areas it is likely that nearly twice the present growth will be consumed.

Using up the pine at this rate, says White, means that we are putting a date on the life of our timber crop. The new pulpwood mills provide a new market for trees that are above 5 inches in diameter and below pole or sawlog size, but such trees are capable of rapid and increasing growth in volume. If only the poorer trees are cut, the better ones will grow faster and can be sold later on for sawlogs, poles, piling, and the like and will even produce heavier yields of pulpwood.

## Taylor's Chapel

Mr. and Mrs. Millard Whitsmore and children were visitors with Mr. and Mrs. D. A. Williams and family Sunday.

Mr. and Mrs. Johnnie Tribble, and son visited with Mr. and Mrs. Manley DuBois Sunday.

Mr. D. F. Hankins, with Mr. C. C. Chapman, of Coffeeville, made a business trip to Tupelo Friday.

Mr. Kyle Horton spent the week end with his parents, Mr. and Mrs. T. A. Horton.

There was no preaching Saturday night due to illness of the preacher. Hope he is better.

Mr. Tom Williams attended the amateur program given at Big Creek Friday night.

Messrs. Hunt Williams, from Earle, Ark. and Anison Shaw, of Coffeeville, spent Sunday with Mr. and Mrs. D. A. Williams and family.

Messrs. Dave A. Williams, Jas. McMahan and Kyle Horton visited Mr. and Mrs. Dalton Waugh and family Sunday night.

Mr. and Mrs. Will Hendrix and family were pleased with a visit from relatives from Texas Sunday.

# Notice To Farmers

## The Grenada County Cold Storage Plant Will Open Monday, November 1

E. S. DAVIS, Manager

The management will accept all kinds of fresh meat for storage and will be prepared to cure and store your pork.

CURING GUARANTEED

If not up to standard you will be paid market value. It has been proven that the difference in shrinkage of home cured pork will more than pay the curing and storage cost. Besides, you save feeding costs awaiting cold weather to kill, and improve the quality of your meat. Every day is killing day for meat to be stored in the cold storage plant.

Prices reduced on winter cover crop seed. Protect your soil from the erosion of winter rains and enrich with vetch, peas and bur clover.

*Kill and store your meats for home use or for market regardless of weather conditions.*

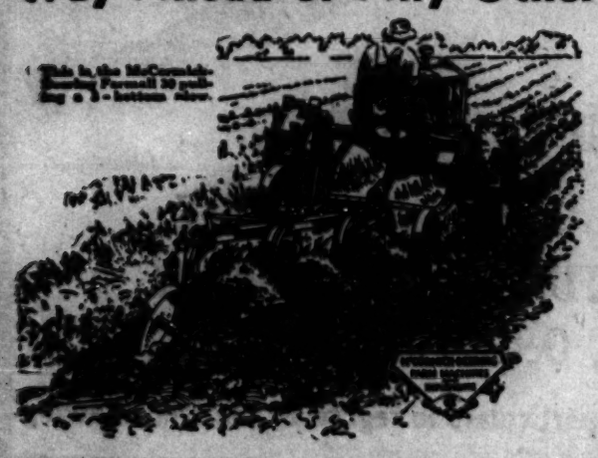
# FARMALL FARMING Is Still Way Ahead of Any Other



# McCORMICK-DEERING

THE FARMALL way of farming row crops is still the cheapest and best way. There isn't any other that can touch it. FARMALL owners have been able to cut production costs to the very bone—they are in a position to take advantage of any upturn in farm prices and profit by it.

Make the FARMALL investment yourself and enjoy all the advantages that FARMALL power brings to its users. There is a size for every farm now with the addition of the FARMALL 12 for small farms. Other sizes are the FARMALL 20 which handles 2 plows, and the FARMALL 30 for 3-plow work. Remember there is only one true FARMALL—the McCormick-Deering.

Come in and let us tell you about it. Or better yet, call us for a demonstration of the FARMALL that is best suited for your farm.

## Grenada Implement Co.

Bank Street Phone 570 Grenada, Miss.

# John Deere Day

## Wednesday, Oct. 27

# Light Conditioning With Liberal Light Is Offered

LIGHT CONDITIONING with liberal light is rapidly becoming a popular vogue, because it not only brings relief to tired eyes, but also adds new and charming beauty to the home. "Light Conditioning", in a nutshell, consists of providing the right amount and right kind of light for seeing, comfort, and beauty wherever eyes are used for work or play.

Soft, diffused light, free from glare; careful placing of lamps; inexpensive new fixtures which introduce flexibility in the lighting for the dining room; efficient fixtures and proper sized bulbs in kitchen or bathroom . . . all these things are factors of Light Conditioning.

In the few short centuries since mankind moved indoors, civilization has laid heavy burdens upon our eyes, with appalling results. One child in every five in our public schools has defective vision, with forty college students in every hundred and half the people over 35 afflicted with similar trouble.

**Measuring Light**

During the past four years, more than four million American homes have been studied by lighting experts, the light measured with a light meter, and definite lighting recommendations made for improved seeing, comfort, and beauty. No wonder Light Conditioning with liberal light has been hailed as one of the finest contributions to modern living! Yet for all its priceless benefits to human eyes, it is surprisingly inexpensive. Every home, rich or poor, can be partly or wholly Light Conditioned with liberal light. It is simply a matter of having sight-saving lamps and lighting fixtures conveniently and charmingly arranged. Light Conditioning with liberal light is flexible, and you can start with one room if you like. The important thing is to make a start, because every day you get along without good lighting, you are inviting eyestrain for yourself and members of your family.

The Mississippi Power & Light Company and local appliance dealers, in urging the public to "Light Condition with Liberal Light," invite every homemaker, parent, and student to inspect the new 1937 I.E.S. lamps and learn how easy it is to buy one with only a few cents down, balance in convenient monthly payments.

With the approach of fall, frequently called "Eyestrain Season" by eye specialists and lighting engineers, there are doubtless a number of empty sockets in your home that need bulb replacement. Fill every empty socket with today's new and brighter bulbs and enjoy the eye-saving comfort that Better Light affords.

Good light costs less today than ever before. Light Condition your home today with liberal light and learn just how much extra protection your eyes receive with good lighting.

## Hon. Walker Wood Sentinel Visitor

Hon. Walker Wood, Secretary of State, honored The Sentinel with a visit on Tuesday of this week. Mr. Wood always drops in to see us when in the City Beautiful, and we always enjoy his visits as he has been a friend of ours for a long, long while.

**THE JOHN MOORE FAMILY**

(Continued from page 1)

other daughter lives in California, another daughter, Mamie, lives in Grenada, the wife of our respected fellow townsman, Sid Bosworth. Two sons of Mr. and Mrs. Tom Moore died a few years ago and they were of fine reputation as are the rest of the family and leave respectable families to carry on. The next son of Mr. and Mrs. John Moore was Willie, the youngest, and well remembered. His good wife died early but they were the parents of two of the best young people ever to grace Grenada, Ludy and Linus. Ludy taught school in our public schools many years. Linus, as were all the Moores, was an architect. They live away from here now. Nor must I overlook the son of John and Mary Moore, Frank, a splendid young man who gave his life for his country on the famous battle field of Franklin. All the sons of John Moore were confederate veterans and Mr. Moore himself contributed much in a financial way, for the success of the lost cause. He and his wife are buried in Grenada.

## Gore Springs News

Mr. and Mrs. Herbert James and two children, of Wayside, spent the week-end in the home of Mr. and Mrs. E. L. James and Mr. and Mrs. RoyMartin.

Those from the Gore Springs school, who attended the Fair at Jackson, were Miss Eva Mae Word and Miss Hallie Edmondson, teachers, Messrs. Lee Rouse, R. J. Turnbo, Toney Chamberlain, John Ed and Paul Williams, students.

Mrs. Belle Trussell and her sister, Mrs. Jessie Bowland, who had been her guest, spent a few days in Holcomb, with their brother, Mr. W. H. Martin, last week.

Mr. T. P. Haile made a business trip to Durant last week. While there he was the guest of his sister, Mrs. Nola Simpson.

Mrs. Albert Frank's many friends in this community congratulate her on the arrival of a son, who arrived a few days ago. Mrs. Franks will be remembered as Miss Nettie Barrow.

Mr. James Trussell, who has been employed at the Hosiery Mill is at home for a few days.

Mr. and Mrs. Fred Tyner and three children spent Sunday in the hospitable home of Mr. and Mrs. F. E. Gillon.

On Wednesday morning, the school was visited by Rev. Huffstatler, who conducted chapel. He chose his subject from Daniel 1st chapter and 8th verse, which every one enjoyed very much.

Mr. and Mrs. Fox Clanton and two daughters spent Sunday night in the home of Mr. and Mrs. Homer Trussell.

Miss Mary Frances Tharpe spent Tuesday night in the home of Mr. and Mrs. J. L. Tharpe, of the Red Hill community.

Mr. and Mrs. Earl Tharpe visited in the home of Mr. and Mrs. David Haile Saturday night.

Miss Lucile McCormick visited relatives in Coffeeville through the week-end.

Don't forget to come to Gore Springs Wednesday night, October 27th and hear the Jewel Cowboys. Come with a whoop, come with a call, come father, mother, brothers sisters, one and all.
